Your Technology Source

"Business Opportunities in Renewable Energy" is a road show by Renewable Energy Asia (RE Asia) aimed at promoting renewable energy and drumming up regional participation to the show. RE Asia 2010 (6th year), and its sister environmental exhibition Entech Pollutec Asia 2010 (20th year), exhibit a wide range of technologies and also serve as forums for investors looking for regional investment opportunities.

Renewable Energy One-Stop Clinic: Visitors will find all the answers; from RE policy, government's incentive, permit, location, technology, project financing, etc.

Energy Efficiency Pavilion: A pavilion dedicated to showcasing energy efficiency technology, product, services and project management services.

ASEAN Country Investment Presentation: Senior officials from ASEAN countries will make their country presentation about RE policy, trend, opportunities, etc.

Seminars & Conferences:

- CEO Energy Forum, co-hosted by Thai Chamber of Commerce, Energy Saving Consulting Center; the success stories of Energy Award Winning CEOs will inspire other CEOs to move in the same direction of energy saving.
- "RE: Business Opportunities in CO2 Reduction" co-hosted by Joint Graduate School of Energy & Environment
- Energy Saving for Industries seminar, Boiler and Pressure Vessel, Environment for Food Industry and many more

International Pavilions: Asean, Germany, Japan, Kansai (Japan), South Korea, Singapore and other individual companies from China, Europe and other nations

And Business Matchmaking: By invitation and web-based matchmaking between ASEAN buyers and exhibitors, investors, partners and associations.
